Everspin Reports Unaudited Second Quarter 2023 Financial Results

Everspin continues to generate profits, reporting positive GAAP net income for the 9^{th} quarter in a row along with strong operational cash flow in its second quarter results.

Chandler, AZ, August 2, 2023 — Everspin Technologies, Inc. (NASDAQ: MRAM), the market leader in MRAM, today announced preliminary unaudited financial results for the second quarter ended June 30, 2023.

Second Quarter 2023 Highlights

- · Q2'23 revenue exceeded the top end of guidance at \$15.7 million.
- The company reported net income of \$3.9 million for Q2'23 compared to \$0.8 million for Q1'23.
- · Adjusted EBITDA for Q2'23 was \$5.4 million compared to \$2.3 million for Q1'23.
- · Basic EPS for Q2'23 was \$0.19 compared to \$0.04 in Q1'23.
- · Everspin generated cash flows from operating activities of \$6.3 million for Q2'23.
- · Everspin ended Q2'23 with cash and cash equivalents of \$30.8 million.
- · Everspin received a one-time employee retention tax credit of \$2.0 million.

"Everspin delivered revenue of \$15.7 million in the second quarter, above the high end of guidance, while managing through the supply chain constraints for our Toggle business and delivering a strong performance on our Radiation Hard programs," said Sanjeev Aggarwal, President & CEO. "We continue to exceed expectations on our Radiation Hard programs to deliver STT-MRAM based solutions for a "high-density memory array" and a "distributed configuration memory" for instant-on FPGAs with multiple time programmability. Healthy backlog in our industrial and automotive markets indicate strength in our core businesses."

Second Quarter 2023 Results

Total revenue for the second quarter of 2023 was \$15.7 million, an increase of 6% from the \$14.8 million reported in the first quarter of 2023. This is an increase of 7% compared to \$14.7 million of revenue in the second quarter of 2022.

MRAM product sales in the second quarter of 2023, which includes both Toggle and STT-MRAM revenue, was \$13.4 million, compared to \$13.8 million reported in the first quarter of 2023. This is compared to \$13.2 million reported in the second quarter of 2022.

Licensing, royalties, patents and other revenue was \$2.3 million, an increase from \$1.1 million reported in the first quarter of 2023. This is an increase of 58% from \$1.5 million reported in the second quarter of 2022.

Second quarter 2023 revenue increased from the prior quarter due to licensing revenue related to Everspin's RAD-Hard projects.

Gross margin for the second quarter of 2023 was 58.4%, compared to 56.8% in the first quarter of 2023 and 58.4% in the second quarter of 2022.

GAAP operating expenses were \$7.6 million in the second quarter of 2023, compared to \$7.7 million in the first quarter of 2023 and \$6.9 million in the second quarter of 2022. GAAP operating expenses increased in the second quarter of 2023 compared to the second quarter of 2022 as a result of increased development costs related to Everspin's new xSPI family of lower density STT-MRAM products that are currently in low volume production.

GAAP net income for the second quarter of 2023 was \$3.9 million, or \$0.19 per basic share, based on 20.7 million weighted-average basic common shares outstanding. This is compared to net income of \$0.8 million, or \$0.04 per basic share, in the first quarter of 2023 and net income of \$1.7 million, or \$0.08 per basic share, in the second quarter of 2022.

Cash and cash equivalents as of the end of the second quarter of 2023 were \$30.8 million, compared to \$24.2 million as of the end of the first quarter of 2023, and \$23.1 million as of the end of the second quarter of 2022.

Everspin generated cash flows from operating activities of \$6.3 million in the second quarter of 2023, compared to \$1.2 million in the first quarter of 2023, and \$4.3 million in the second quarter of 2022.

During the second quarter of 2023, Everspin received a one-time Employee Retention Tax Credit (ERTC) refund from the United States Treasury totaling \$2.0 million. The refund was received pursuant to provisions within the Coronavirus Aid, Relief, and Economic Security Act. Everspin recorded the one-time ERTC within other income during the second quarter of 2023.

Business Outlook

For the third quarter 2023, Everspin expects total revenue in a range of \$15.4 million to \$16.4 million. Everspin expects GAAP net income per basic share to be between \$0.01 and \$0.06.

This outlook is dependent on Everspin's current expectations, which may be impacted by, among other things, evolving external conditions, such as the resurgence of COVID-19 and its variants, local safety guidelines, worsening impacts due to supply chain constraints or interruptions, including due to the military conflict in Ukraine and recent market volatility, semiconductor downturn and the other risk factors described in Everspin's filings with the Securities and Exchange Commission (the "SEC"), including its Annual Report on Form 10-K for the fiscal year ended December 31, 2022, its Quarterly Reports on Form 10-Q filed with the SEC during 2023, as well as in its subsequent filings with the SEC.

Use of Non-GAAP Financial Measures

Everspin supplements the reporting of its financial information determined under generally accepted accounting principles in the United States of America (GAAP) with Adjusted EBITDA, which is a non-GAAP financial measure. Everspin defines Adjusted EBITDA as net income adjusted for

interest expense, taxes, depreciation and amortization, stock-based compensation expense, and restructuring costs if any.

Everspin's management and board of directors use Adjusted EBITDA to understand and evaluate its operating performance and trends, to prepare and approve its annual budget and to develop short-term and long-term operating and financing plans. Accordingly, Everspin believes that Adjusted EBITDA provides useful information for investors in understanding and evaluating its operating results in the same manner as its management and board of directors. Adjusted EBITDA is a non-GAAP financial measure and should be considered in addition to, not as superior to, or as a substitute for, net income reported in accordance with GAAP. Moreover, other companies may define Adjusted EBITDA differently, which limits the usefulness of this measure for comparisons with such other companies. Everspin encourages investors to review its financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.
