Everspin Reports Unaudited First Quarter 2023 Financial Results

Everspin continues to generate profits and operational cash flow with solid first quarter results while paying off debt.

Chandler, AZ, May 3, 2023 — Everspin Technologies, Inc. (NASDAQ: MRAM), the market leader in MRAM, today announced preliminary unaudited financial results for the first quarter ended March 31, 2023.

First Quarter 2023 Highlights

- Q1'23 revenue came in at the top end of guidance at \$14.8 million.
- The company reported net income of \$0.8 million for Q1'23, compared to \$0.6 million for Q4'22.
- Adjusted EBITDA for Q1'23 was \$2.3 million, compared to \$2.1 million for Q4'22.
- Basic EPS for Q1'23 was \$0.04 compared to \$0.03 in Q4'22.
- Everspin generated cash flows from operating activities of \$1.2 million for Q1'23.
- Everspin paid off its term loan and line of credit in Q1'23, ending with cash and cash equivalents of \$24.2 million.

"Everspin was GAAP net income positive for the 8th quarter in a row driven by growing demand of our Toggle and STT-MRAM products," said Sanjeev Aggarwal, President & CEO. "We are excited to see the interest from our customers to evaluate and design in our new xSPI family of STT-MRAM products. This family of STT-MRAM products was awarded Best in Show Memory and Storage Category at the Embedded World Exhibition & Conference, 2023."

First Quarter 2023 Results

Total revenue for the first quarter of 2023 was \$14.8 million compared to \$15.7 million reported in the fourth quarter of 2022. This is an increase of 3% compared to \$14.3 million of revenue in the first quarter of 2022.

MRAM product sales in the first quarter of 2023, which includes both Toggle and STT-MRAM revenue, was \$13.8 million, compared to \$14.6 million reported in the fourth quarter of 2022. This is an increase of 9% from the \$12.7 million reported in the first quarter of 2022.

Licensing, Royalties, Patents and Other revenue remained consistent in the first quarter of 2023 compared to the fourth quarter of 2022 at \$1.1 million. This is compared to \$1.7 million in the first quarter of 2022.

The increase in total revenue for the first quarter of 2023 compared to the first quarter of 2022 was due to strong toggle demand and sales.

Gross margin for the first quarter of 2023 was 56.8%, compared to 51.4% in the fourth quarter of 2022 and 58.0% in the first quarter of 2022.

GAAP operating expenses was \$7.7 million in the first quarter of 2023, compared to \$7.5 million in the fourth quarter of 2022 and \$6.3 million in the first quarter of 2022. GAAP operating expenses increased in the first quarter of 2023 compared to the first quarter of 2022 as a result of increased development costs related to the new xSPI family of lower density STT-MRAM products.

GAAP net income for the first quarter of 2023 was \$0.8 million, or \$0.04 per basic share, based on 20.5 million weighted-average basic common shares outstanding. This is compared to net income of \$0.6 million, or \$0.03 per basic share, in the fourth quarter of 2022 and net income of \$1.9 million, or \$0.10 per basic share, in the first quarter of 2022.

Cash and cash equivalents as of the end of the first quarter of 2023 were \$24.2 million, compared to \$26.8 million as of the end of the fourth quarter of 2022, and \$19.9 million as of the end of the first quarter of 2022.

Everspin generated cash flows from operating activities of \$1.2 million in the first quarter of 2023, compared to \$5.2 million in the fourth quarter of 2022, and used cash of \$1.0 million in the first quarter of 2022.

Business Outlook

For the second quarter 2023, Everspin expects total revenue in a range of \$14.5 million to \$15.5 million. Everspin expects GAAP net income per basic share to be between breakeven and \$0.05, primarily influenced by expenses related to next generation 28nm STT-MRAM product development and price increases from its suppliers.

This outlook is dependent on Everspin's current expectations, which may be impacted by, among other things, evolving external conditions, such as the resurgence of COVID-19 and its variants, local safety guidelines, worsening impacts due to supply chain constraints or interruptions, including due to the military conflict in Ukraine and recent market volatility, semiconductor downturn and the other risk factors described in Everspin's filings with the Securities and Exchange Commission (the "SEC"), including its Annual Report on Form 10-K for the fiscal year ended December 31, 2022, its Quarterly Reports on Form 10-Q filed with the SEC during 2023, as well as in its subsequent filings with the SEC.

Use of Non-GAAP Financial Measures

Everspin supplements the reporting of its financial information determined under generally accepted accounting principles in the United States of America (GAAP) with Adjusted EBITDA, which is a non-GAAP financial measure. Everspin defines Adjusted EBITDA as net income adjusted for interest expense, taxes, depreciation and amortization, stock-based compensation expense, and restructuring costs if any.

Everspin's management and board of directors use Adjusted EBITDA to understand and evaluate its operating performance and trends, to prepare and approve its annual budget and to develop short-term and long-term operating and financing plans. Accordingly, Everspin believes that Adjusted EBITDA provides useful information for investors in understanding and evaluating its operating results in the same manner as its management and board of directors. Adjusted EBITDA is a non-GAAP financial measure and should be considered in addition to, not as superior to, or as a substitute for, net income reported in accordance with GAAP. Moreover, other companies may define Adjusted EBITDA differently, which limits the usefulness of this measure for comparisons with such other companies. Everspin encourages investors to review its financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.
